UnitedHealthcare Connected® (Medicare-Medicaid Plan) 2023 List of Covered Drugs (Formulary)

Introduction

This document is called the *List of Covered Drugs* (also known as the Drug List). It tells you which prescription drugs and over-the-counter (OTC) drugs are covered by UnitedHealthcare Connected. The Drug List also tells you if there are any special rules or restrictions on any drugs covered by UnitedHealthcare Connected. Key terms and their definitions appear in the last chapter of the *Member Handbook*.

Important Message About What You Pay for Vaccines - Our plan covers most Part D vaccines at no cost to you. Call Member Services for more information.

Our contact information, along with the date we last updated the Drug List, appears on the front and back cover pages.

B. Frequently Asked Questions (FAQ)

Find answers here to questions you have about this *List of Covered Drugs*. You can read all of the FAQ to learn more, or look for a question and answer.

B1. What prescription drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the “Drug List” for short.)

The drugs on the *List of Covered Drugs* that starts on page 14 are the drugs covered by UnitedHealthcare Connected. These drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

- UnitedHealthcare Connected will cover all medically necessary drugs on the Drug List if:
 - Your doctor or other prescriber says you need them to get better or stay healthy, **and**
 - You fill the prescription at a UnitedHealthcare Connected network pharmacy.
- UnitedHealthcare Connected may have additional steps to access certain drugs (refer to question B4 below).

You can also find an up-to-date list of drugs that we cover on our website at UHCommunityPlan.com or call Member Services at **1-800-256-6533**, TTY **7-1-1**.

B2. Does the Drug List ever change?

Yes, and UnitedHealthcare Connected must follow Medicare and Texas Medicaid rules when making changes. We may add or remove drugs on the Drug List during the year.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior authorization (PA) or approval for a drug. (PA is permission from UnitedHealthcare Connected before you can get a drug.)
- Add or change the amount of a drug you can get (called quantity limits).
- Add or change step therapy restrictions on a drug. (Step therapy means you must try one drug before we will cover another drug.)

For more information on these drug rules, refer to question B4.

This section is continued on the next page.

If you have questions, please call UnitedHealthcare Connected at **1-800-256-6533**, TTY **7-1-1**, 8 a.m. - 8 p.m. local time, Monday - Friday. The call is free. **For more information**, visit UHCommunityPlan.com.

If you are taking a Medicare Part D drug that was covered at the **beginning** of the year, we will generally not remove or change coverage of that drug **during the rest of the year** unless:

- A new, cheaper drug comes on the market that works as well as a drug on the Drug List now, **or**
- We learn that a drug is not safe, **or**
- A drug is removed from the market.

Questions B3 and B6 below have more information on what happens when the Drug List changes.

- You can always check UnitedHealthcare Connected's up-to-date Drug List online at **UHCCommunityPlan.com**.
- You can also call Member Services to check the current Drug List at **1-800-256-6533**, TTY **7-1-1**.

B3. What happens when there is a change to the Drug List?

Some changes to the Drug List will happen **immediately**. For example:

- **A new generic drug becomes available.** Sometimes, a new generic drug comes on the market that works as well as a brand name drug on the Drug List now. When that happens, we may remove the brand name drug and add the new generic drug. When we add the new generic drug, we may also decide to keep the brand name drug on the list but change its coverage rules or limits.
 - We may not tell you before we make this change, but we will send you information about the specific change we made once it happens.
 - You or your provider can ask for an exception from these changes. We will send you a notice with the steps you can take to ask for an exception. Please refer to questions B10 - B12 for more information on exceptions.
- **A drug is taken off the market.** If the Food and Drug Administration (FDA) says a drug you are taking is not safe or the drug's manufacturer takes a drug off the market, we will take it off the Drug List. If you are taking the drug, we will let you know. Contact your doctor or other prescriber and ask about your other options.

This section is continued on the next page.

If you have questions, please call UnitedHealthcare Connected at **1-800-256-6533**, TTY **7-1-1**, 8 a.m. - 8 p.m. local time, Monday - Friday. The call is free. **For more information**, visit **UHCCommunityPlan.com**.

We may make other changes that affect the drugs you take. We will tell you in advance about these other changes to the Drug List. These changes might happen if:

- The FDA provides new guidance or there are new clinical guidelines about a drug.
- We add a generic drug that is not new to the market **and**
- Replace a brand name drug currently on the Drug List **or**
- Change the coverage rules or limits for the brand name drug.

When these changes happen, we will:

- Tell you at least 30 days before we make the change to the Drug List **or**
- Let you know and give you a 30-day supply of the drug after you ask for a refill.

This will give you time to talk to your doctor or other prescriber. They can help you decide:

- If there is a similar drug on the Drug List you can take instead **or**
- Whether to ask for an exception from these changes. To learn more about exceptions, refer to questions B10 – B12.

B4. Are there any restrictions or limits on drug coverage or any required actions to take to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior authorization (PA) or approval:** For some drugs, you or your doctor or other prescriber must get PA from UnitedHealthcare Connected before you fill your prescription. UnitedHealthcare Connected may not cover the drug if you do not get approval.
- **Quantity limits:** Sometimes UnitedHealthcare Connected limits the amount of a drug you can get.
- **Step therapy:** Sometimes UnitedHealthcare Connected requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor or other prescriber thinks the first drug doesn't work for you, then we will cover the second.

You can find out if your drug has any additional requirements or limits by looking in the tables on pages 14 - 115. You can also get more information by visiting our website at **UHCCommunityPlan.com**. We have posted online documents that explain our PA and step therapy restrictions. You may also ask us to send you a copy.

This section is continued on the next page.

If you have questions, please call UnitedHealthcare Connected at **1-800-256-6533**, TTY **7-1-1**, 8 a.m. - 8 p.m. local time, Monday - Friday. The call is free. **For more information**, visit **UHCCommunityPlan.com**.

You can ask for an exception from these limits. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception. Please refer to questions B10 - B12 for more information about exceptions.

B5. How will I know if the drug I want has limits or if there are required actions to take to get the drug?

The table of drugs on pages 14 - 115 has a column labeled “Necessary actions, restrictions, or limits on use.”

B6. What happens if UnitedHealthcare Connected changes their rules about some drugs (for example, prior authorization (PA) or approval, quantity limits, and/or step therapy restrictions)?

In some cases, we will tell you in advance if we add or change PA, quantity limits, and/or step therapy restrictions on a drug. Refer to question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the Drug List change.

B7. How can I find a drug on the Drug List?

There are two ways to find a drug:

- You can search alphabetically by the drug’s name, **or**
- You can search by medical condition.

To search **alphabetically**, refer to the Index of Covered Drugs section that begins on page 116. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information.

To search **by medical condition**, find the section labeled “Drugs Grouped by Medical Condition” on pages 14 - 115. The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, Cardiovascular Agents. That is where you will find drugs that treat heart conditions.

If you have questions, please call UnitedHealthcare Connected at **1-800-256-6533**, TTY **7-1-1**, 8 a.m. - 8 p.m. local time, Monday - Friday. The call is free. **For more information**, visit **UHCCommunityPlan.com**.

B8. What if the drug I want to take is not on the Drug List?

If you don't find your drug on the Drug List, call Member Services at **1-800-256-6533**, TTY **7-1-1** and ask about it. If you learn that UnitedHealthcare Connected will not cover the drug, you can do one of these things:

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. They can prescribe a drug on the Drug List that is like the one you want to take. **Or**
- You can ask the health plan to make an exception to cover your drug. Please refer to questions B10 – B12 for more information about exceptions.

B9. What if I am a new UnitedHealthcare Connected member and can't find my drug on the Drug List or have a problem getting my drug?

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you are a member of UnitedHealthcare Connected. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception.

If your prescription is written for fewer days, we will allow multiple refills to provide up to a maximum of 30 days of medication.

We will cover a 30-day supply of your drug if:

- You are taking a drug that is not on our Drug List, **or**
- Health plan rules do not let you get the amount ordered by your prescriber, **or**
- The drug requires PA by UnitedHealthcare Connected, **or**
- You are taking a drug that is part of a step therapy restriction.

If you are in a nursing home or other long-term care facility and need a drug that is not on the Drug List or if you cannot easily get the drug you need, we can help. If you have been in the plan for more than 90 days, live in a long-term care facility, and need a supply right away:

- We will cover one 31-day supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new UnitedHealthcare Connected member.
- This is in addition to the temporary supply during the first 90 days you are a member of UnitedHealthcare Connected.

This section is continued on the next page.

If you have questions, please call UnitedHealthcare Connected at **1-800-256-6533**, TTY **7-1-1**, 8 a.m. - 8 p.m. local time, Monday - Friday. The call is free. **For more information**, visit **UHCommunityPlan.com**.

If you are going through a change in your level of care, such as being transferred from a hospital to a long-term care facility, any time during the year, we may cover a temporary 31-day supply of the Part D drug you need. This will give you time to talk to your doctor or other prescriber about other treatment options or to try to get an exception. Please refer to questions B10 - B12 for more information about exceptions.

We will not pay for more of your drug after you get a temporary supply unless you receive authorization from UnitedHealthcare Connected.

B10. Can I ask for an exception to cover my drug?

Yes. You can ask UnitedHealthcare Connected to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, UnitedHealthcare Connected may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
 - Other examples: You can ask us to drop step therapy restrictions or PA requirements.
-

B11. How can I ask for an exception?

To ask for an exception, call Member Services. A Member Services representative will work with you and your provider to help you ask for an exception. You can also read Chapter 9 of the *Member Handbook* to learn more about exceptions.

B12. How long does it take to get an exception?

After we get a statement from your prescriber supporting your request for an exception, we will give you a decision within 72 hours. Your doctor or other prescriber can fax or mail the statement to us. Or your doctor or other prescriber can tell us on the phone, and then fax or mail a statement. If you have questions, please call Member Services at **1-800-256-6533**, TTY **7-1-1**.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of getting your prescriber's supporting statement.

If you have questions, please call UnitedHealthcare Connected at **1-800-256-6533**, TTY **7-1-1**, 8 a.m. - 8 p.m. local time, Monday - Friday. The call is free. **For more information**, visit **UHCommunityPlan.com**.

B13. What are generic drugs?

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA).

UnitedHealthcare Connected covers both brand name drugs and generic drugs.

B14. What are OTC drugs?

OTC stands for "over-the-counter." UnitedHealthcare Connected covers some OTC drugs when they are written as prescriptions by your provider.

You can read the UnitedHealthcare Connected Drug List to find out what OTC drugs are covered.

B15. Does UnitedHealthcare Connected cover non-drug OTC products?

Yes. UnitedHealthcare Connected covers some non-drug OTC products when they are written as prescriptions by your provider.

You can read the UnitedHealthcare Connected Drug List to find out what non-drug OTC products are covered.

B16. What is my copay?

You can read the UnitedHealthcare Connected Drug List to learn about the copay for each drug.

UnitedHealthcare Connected members living in nursing homes or other long-term care facilities will have no copays. Some members getting long-term care in the community will also have no copays.

Copays are listed by tiers. Tiers are groups of drugs with the same copay.

- Tier 1 drugs have the lowest copay. They are generic drugs. The copay is from \$0 to \$4.15, depending on your income.
- Tier 2 drugs have a higher copay. They are brand name drugs. The copay is from \$0 to \$10.35, depending on your income.
- Tier 3 drugs have \$0 copay. They are OTC drugs.

If you have questions, please call UnitedHealthcare Connected at **1-800-256-6533**, TTY 7-1-1, 8 a.m. - 8 p.m. local time, Monday - Friday. The call is free. **For more information**, visit **UHCommunityPlan.com**.

C. Overview of the *List of Covered Drugs*

The following list of covered drugs gives you information about the drugs covered by UnitedHealthcare Connected. If you have trouble finding your drug in the list, turn to the Index of Covered Drugs that begins on page 116. The index alphabetically lists all drugs covered by UnitedHealthcare Connected.

The first column of the table lists the name of the drug. Brand name drugs are capitalized (e.g., HUMALOG) and generic drugs are listed in lowercase italics (e.g., *simvastatin*).

The information in the “Necessary actions, restrictions, or limits on use” column tells you if UnitedHealthcare Connected has any rules for covering your drug.

Coverage rules and limits

PA – Prior authorization (approval)

For some drugs, you or your doctor or other prescriber must get approval from UnitedHealthcare Connected before you fill your prescription. UnitedHealthcare Connected may not cover the drug if you do not get approval.

QL - Quantity limits

Sometimes UnitedHealthcare Connected limits the amount of a drug you can get.

ST - Step therapy

Sometimes UnitedHealthcare Connected requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor or other prescriber thinks the first drug doesn't work for you, then we will cover the second.

Other special coverage rules

B/D - Medicare Part B or Part D

Depending on how this drug is used, it may be covered by either Medicare Part B (doctor and outpatient health care) or Medicare Part D (prescription drugs). Your doctor may need to provide the plan with more information about how this drug will be used to make sure it's correctly covered by Medicare.

LA - Limited access

Drugs are considered “limited access” if the FDA says the drug can be given out only by certain facilities or doctors. These drugs may require extra handling, provider coordination or patient education that can't be done at a network pharmacy.

MME - Morphine milligram equivalent

Additional quantity limits may apply across all drugs in the opioid class used for the treatment of pain. This additional limit is called a cumulative morphine milligram equivalent (MME), and is designed to monitor safe dosing levels of opioids for individuals who may be taking more than 1 opioid drug for pain management. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.

This section is continued on the next page.

7D - 7-day limit

An opioid drug used for the treatment of acute pain may be limited to a 7-day supply for members with no recent history of opioid use. This limit is intended to minimize long-term opioid use. For members who are new to the plan, and have a recent history of using opioids, the limit may be overridden by the pharmacy when appropriate.

DL - Dispensing limit

Dispensing limits apply to this drug. This drug is limited to a 1-month supply per prescription.

Note: The asterisk (*) next to a drug means the drug is not a “Part D drug.” The amount you pay when you fill a prescription for this drug does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage).

- In addition, if you are getting Extra Help to pay for your prescriptions, you will not get any Extra Help to pay for these drugs. For more information on Extra Help, please refer to the call-out box below.
- These drugs also have different rules for appeals. An appeal is a formal way of asking us to review a coverage decision and to change it if you think we made a mistake. For example, we might decide that a drug that you want is not covered or is no longer covered by Medicare or Texas Medicaid.
- If you or your doctor disagrees with our decision, you can appeal. To ask for instructions on how to appeal, call Member Services at **1-800-256-6533**, TTY **7-1-1**. You can also read Chapter 9, of the *Member Handbook* to learn how to appeal a decision.

Extra Help

Extra Help is a Medicare program that helps people with limited incomes and resources reduce Medicare Part D prescription drug costs, such as premiums, deductibles, and copays. Extra Help is also called the “Low-Income Subsidy,” or “LIS.”

C1. Drugs Grouped by Medical Condition

The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, Cardiovascular Agents. That is where you will find drugs that treat heart conditions.
