Take advantage of a specially designed plan

This plan is for people with Medicare and Medicaid coverage and has many extra benefits that can help you live a healthier life. It has a network of quality doctors, hospitals, pharmacies and other providers, designed to help you get the care you need. And you have access to a large dental provider network. You can also get care from out-of-network dental providers but your costs may be higher, even for services with a \$0 copay.

Here's how this HMO-POS D-SNP plan works

Get care from providers in the network or visit out-of-network providers for covered dental services.

Select a primary care provider to oversee and help manage your care. It's required by the plan, but it's also very beneficial for your long term health and well-being.

\$0 covered services when received in-network. Look at the Summary of Benefits in this book to find out what services are covered.

No referral is needed to see a network specialist or other provider.

Emergency and urgently needed services are covered anywhere in the world.

This plan includes prescription drug coverage. Always use network pharmacies. You may pay more or the full cost for drugs received from pharmacies not in the network.

Go to **UHC.com/CommunityPlan** to search for a network provider or pharmacy using the online directories. You can also view the plan Drug List (Formulary) to see what drugs are covered and if there are any restrictions. See your Evidence of Coverage for a list of all covered services.

About this plan

UHC Dual Complete TN-S001 (HMO-POS D-SNP) is a Medicare Advantage HMOPOS plan with a Medicare contract.

To join this plan, you must be entitled to Medicare Part A, be enrolled in Medicare Part B, live within our service area listed below, and be a United States citizen or lawfully present in the United States.

This plan is a Dual Eligible Special Needs Plan (D-SNP) for people who have both Medicare and Medicaid, and don't pay anything for covered medical services. How much Medicaid covers depends on your income, resources, and other factors. Some people get full Medicaid benefits.

Your eligibility to enroll in this plan depends on your type of Medicaid.

You can enroll in this plan if you are in one of these Medicaid categories:

- Qualified Medicare Beneficiary Plus (QMB+): You get Medicaid coverage of Medicare
 cost-share and are also eligible for full Medicaid benefits. Medicaid pays your Part A and
 Part B premiums, deductibles, coinsurance, and copayment amounts for Medicare covered
 services. You pay nothing, except for Part D prescription drug copays.
- Qualified Medicare Beneficiary (QMB): You get Medicaid coverage of Medicare cost-share but are not eligible for full Medicaid benefits. Medicaid pays your Part A and Part B premiums, deductibles, coinsurance, and copayment amounts only for Medicare covered services. You pay nothing, except for Part D prescription drug copays.
- Specified Low-Income Medicare Beneficiary (SLMB+): Medicaid pays your Part B premium and provides full Medicaid benefits. You are eligible for full Medicaid benefits. At times you may also be eligible for limited assistance from your state Medicaid agency in paying your Medicare cost share amounts. Generally your cost share is 0% when the service is covered by both Medicare and Medicaid. There may be cases where you have to pay cost sharing when a service or benefit is not covered by Medicaid.
- Full Benefits Dual Eligible (FBDE): Medicaid may provide limited assistance with Medicare cost-sharing. Medicaid also provides full Medicaid benefits. You are eligible for full Medicaid benefits. At times you may also be eligible for limited assistance from the State Medicaid Office in paying your Medicare cost share amounts. Generally your cost share is 0% when the service is covered by both Medicare and Medicaid. There may be cases where you have to pay cost sharing when a service or benefit is not covered by Medicaid.

If your category of Medicaid eligibility changes, your cost share may also increase or decrease. You must recertify your Medicaid enrollment to continue to receive your Medicare coverage.

Medicare Advantage plans (Part C) and cost plans

Medicare Health Maintenance Organization (HMO) plan — A Medicare Advantage plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. In most HMOs, you can only get your care from doctors or hospitals in the plan's network (except in emergencies).

Medicare HMO point-of-service (HMO-POS) plan — A Medicare Advantage plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. HMO-POS plans may allow you to get some services out of network for a higher copay or coinsurance.

Medicare preferred provider organization (PPO) plan — A Medicare Advantage plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. PPOs have network doctors, providers and hospitals but you can also use out-of-network providers, usually at a higher cost.

Medicare private fee-for-service (PFFS) plan — A Medicare Advantage plan in which you may go to any Medicare-approved doctor, hospital and provider that accepts the plan's payment, terms and conditions and agrees to treat you — not all providers will. If you join a PFFS plan that has a network, you can see any of the network providers who have agreed to always treat plan members. You will usually pay more to see out-of-network providers.

Medicare Special Needs Plan (SNP) — A Medicare Advantage plan that has a benefit package designed for people with special health care needs. Examples of the specific groups served include people who have both Medicare and Medicaid, people who reside in nursing homes and people who have certain chronic medical conditions.

Medicare Medical Savings Account (MSA) plan — MSA plans combine a high-deductible health plan with a bank account. The plan deposits money from Medicare into the account. You can use it to pay your medical expenses until your deductible is met.

Medicare cost plan — In a Medicare cost plan, you can go to providers both in and out-of-network. If you get services outside of the plan's network, your Medicare-covered services will be paid for under Original Medicare but you will be responsible for Medicare coinsurance and deductibles.

Stand-alone Medicare prescription drug (Part D) plan

Medicare prescription drug plan (PDP) — A standalone drug plan that adds prescription drug coverage to Original Medicare, some Medicare Cost Plans, some Medicare private fee-for-service plans and Medicare Medical Savings Account Plans.

Other related products

Medicare Supplement (Medigap) Products — Insurance plans that help pay some of the out-of-pocket costs not paid by Original Medicare Part A and Part B, such as deductibles and coinsurance amounts for Medicare approved services.

Dental, vision, hearing products — Plans offering additional benefits for consumers who are looking to cover needs for dental, vision or hearing. These plans are not affiliated or connected to Medicare.

Hospital indemnity products — Plans offering additional benefits; payable to consumers based upon their medical utilization; sometimes used to defray copays/coinsurance. These plans are not affiliated or connected to Medicare.

Enrollment checklist

Before making an enrollment decision, it is important that you fully understand our benefits and rules. If you have any questions, you can call and speak to a Customer Service Representative at the number listed on the back cover of this book.

Understanding the benefits

Understanding important rules

- Benefits, premiums and/or copays/coinsurance may change on January 1 of each year.
- Our plan allows you to see providers outside of our network (non-contracted providers). Check the EOC to see which out-of-network services are covered on this plan. However, while we will pay for covered services the provider must agree to treat you. Except in an emergency or urgent situation, non-contracted providers may deny care.
- Effect on Current Coverage. If you are currently enrolled in a Medicare Advantage plan, your current Medicare Advantage health care coverage will end once your new Medicare Advantage coverage starts. If you have TRICARE, your coverage may be affected once your new Medicare Advantage coverage starts. Please contact TRICARE for more information. If you have a Medigap plan, once your Medicare Advantage coverage starts, you may want to drop your Medigap policy because you will be paying for coverage you cannot use.
- This plan is a Dual Eligible Special Needs Plan (D-SNP). Your ability to enroll will be based on verification that you are entitled to both Medicare and medical assistance from a state plan under Medicaid.

Important information: 2024 Medicare star ratings

UnitedHealthcare - H0251

For 2024, UnitedHealthcare - H0251 received the following Star Ratings from Medicare:

Overall Star Rating: $\star \star \star \star$ 4 stars

Health Services Rating: $\star \star \star \star$ 4.5 stars

Drug Services Rating: $\star \star \star \star$ 4 stars

Every year, Medicare evaluates plans based on a 5-star rating system.

Why Star Ratings are Important

Star Ratings are based on factors that include:

- Feedback from members about the plan's service and care
 The number of members who left or stayed with the plan
 The number of complaints Medicare got about the plan
 Data from doctors and hospitals that work with the plan
- More stars mean a better plan for example, members may get better care and better, faster customer service.

The number of stars shows how well a plan performs.
