What To Do For Your Child’s Smile!

- Clean your child’s mouth twice a day, even if he/she does not have teeth yet. Wipe his/her gums with gauze. Anything that touches someone else’s mouth should not be allowed to touch his/her mouth.
- Once the first tooth appears, use a soft-bristled toothbrush and water to brush your child’s teeth.
- Children should have their first dental visit around the time of their first tooth eruption and no later than age 1.
- There should be 20 teeth in your child’s mouth by age 3.
- Never put your child to sleep with a bottle containing anything but water. Sugary foods and drinks should be avoided and products containing xylitol should be encouraged.
- Routine exams should occur every 6 months or as determined by your child’s dentist.
- Once your child learns not to swallow toothpaste, brush his/her teeth with a rice sized speck of fluoride toothpaste.
